Naloxone could save my life...

Due to the current medication(s) I am taking, my pharmacist recommended that I talk to you about obtaining a prescription for Naloxone.

---

Attention Physician:

Please write prescription for Naloxone: 2x 2mg/2ml pre-filled Luer-Lock ready needleless syringes and direct your patient to have it filled at one of the participating pharmacies listed on the back of this card.

The atomization devices are included in a Project Lazarus Rescue Kit and will be given to your patient along with the Naloxone prefilled syringes and directions for use (See below). Naloxone is covered by Medicaid and some other insurers. A drug copay and other charges may be required.
